# Ammo Grips

Carry ammo like never before!

for rifles

for shotguns

## Tired of the same old shell carrier?

- Ribbed elastic that's uncomfortable to your face
- Slides and moves around on your stock, this creates a bad cheek weld, which hurts your accuracy
- Interferes with and is hard to put on and take off of sling
- You have to unload old style shell carrier when you put gun in case or when you take your firearm into a gun shop or travel in public
- Does not accentuate the look of your firearm
- Innovative top flap protects ammo from falling out, simply folds behind bullets when not in use

## Carry ammo like never before!

- Woven polyester hook and loop – made for outdoors, superior UV and grips better when wet and around salt
- Heavy woven polyester elastic-made for outdoor use, made to last (will not run if snagged)
- Stays in place, will not come off until you pull it off
- Leaves stock uncluttered for a natural feel when shooting – allows for use of a shock and recoil reducing cheek pad, like the God'A Grip Cheek Pad which creates a comfortable, secure cheek weld
- Makes for easy on and off when using a sling – will not interfere with sling
- Simply peel off Ammo Grip when traveling, taking your firearm into a gun shop or carrying in a gun case
- By having a second or third Ammo Grip, allows you to strip and regrip with extra ammo-quick, also rolls up and keeps your extra ammo organized in your pocket
- Great style, creates a more custom look for your firearm
- Adhesive was developed to stick to synthetic or wood stocks, but can be removed with no harm to firearm finish – simple peel and stick
- Choice of 6 or 10 shot for standard size ammo-great for competitive shooters and hunters, 5 shot for shotgunners and 6 shot for big bore guns – Winchester Short Magnums, Remington Ultra Mags, Weatherby Magnums, Ultra Mags, .410's, etc.

# Cheek Pads

ENHANCES ACCURACY, COMFORT & CONSISTENCY WITH RIFLES, SHOTGUNS & OTHER GUNS.

- 3M Adhesive will stick to but not harm wood & synthetic stocks.
- Made with Sorbothane, the premier shock absorbing material
- Made & field-tested by hunters, for hunters.

# Pistol Grips

**New inexpensive soft, custom grips for removable side grip pistols!**

- New slimmer, slightly texture design with wings that slide beneath the grip panels for a secure, locked in fit
- Gives a custom feel to any ones hands, helps to keep a firm locked in grip
- Absorbs shock to the shooters fingers – relieves stress to forearms from over gripping
- Gives a custom look and feel to your pistol
- Fits most pistols with removable grip side panels or polymer frame

# 1911 Grips

- Our 1911 Sorbothane grips conform to your personal grip
- Available in Black with several perimeter patterns or complete hydro pattern of entire side paneling. For more details and patterns checkout [www.godagrip.com](http://www.godagrip.com)

# Utility Bag

Our new ballistic nylon utility bag with Velcro enclose, can hold various calibers of loose ammo, range dope or handy items! You can even mount the 6 shot ammo grip (using short action calibers) inside the bag as an option. Move the utility bag from rifle to rifle with extra backs. Keep your ammo/needed items handy and easy to access!

# Bench Pad

Tired of beating your elbow up at the range? Our new Sorbothane Bench Pad is your answer! Keep it in your range bag and shoot comfortably no matter what the surface is, all day long. Great for pistol shooters too!
